SUMMARY

experienced full-stack web development and mobile application development. With a strong foundation in both front-end and back-end technologies

WORK EXPERIENCE

KB Furniture and Interior Designs

Mar 2024 - May 2024

- Designed and developed KB Furniture, a fully functional e-commerce mobile application for showcasing and selling furniture.
- Implemented a user-friendly UI/UX to enhance customer engagement and browsing experience.
- Utilized Firebase for real-time database storage, clerk user authentication, and order management.

Backend Developer – Food Delivery System

MAY 2024 - Present

- Developed a robust backend system for a food delivery platform using Django and Django REST Framework (DRF).
- Designed and implemented RESTful APIs to handle user authentication, restaurant listings, menu management, order processing, and delivery tracking.
- utilized PostgreSQL/MySQL for efficient data storage and management.

PROJECTS

Food Delivery Application

May 2024 - Present

- Overview: Developed a comprehensive food delivery application with a seamless user experience for browsing menus, placing orders, and making payments.
- Frontend: Utilized React Native to create an intuitive and responsive interface, ensuring compatibility across various devices.
- Backend: Built a robust backend using Django and Django REST Framework, handling user authentication, order processing, and real-time updates.
- Real-Time Features: Incorporated WebSockets for live order tracking and status updates, enhancing user engagement.

EDUCATION

Graduate - 2026

B.S. Software Engineering

Mekelle University

- GPA of 3.85/4.0
